Change Control Notification Document #0012-
Product Discontinuations and General Catalog SKU Rationalization

Please distribute this information to the appropriate departments and personnel within your organization.

Description of Change

This letter serves as notification that Athens Bioscience is discontinuing select products and removing select grades, package sizes, and configurations from its general commercial catalog as part of an update to our product portfolio.

The following catalog numbers are affected:

Product	Affected Catalog Number(s)	Continued Availability
Dog Immunoglobulin G	16-16-090707-DOG	Discontinued; will not be remanufactured
Dog Apotransferrin	16-16-A32001-DOG-1MG	Discontinued; will not be remanufactured
Apolipoprotein A-I, LEL	16-16-120101-LEL-500UG 16-16-120101-LEL-1MG	ApoA-I remains available in Standard and Immunogen Grades
Immunoglobulin G, Fc Fragment, LEL	16-16-090707-Fc-LEL-1MG 16-16-090707-Fc-LEL-5MG 16-16-090707-Fc-LEL-10MG	Fc Fragment remains available in Standard and Immunogen Grades
Catalase	16-05-030000-500UG 16-05-030000-1MG	Remains available by activity in 50 kU and 100 kU sizes. Existing customer-specific arrangements are not affected.
Superoxide Dismutase (SOD)	16-05-191504-100UG	Remains available by activity in 1 kU, 10 kU, and 30 kU sizes
Immunoglobulin D (IgD)	16-16-090704-25UG 16-16-090704-100UG	Discontinued; will not be remanufactured
Lactoferrin	16-13-120103-100MG	Remains available in 5 mg and 25 mg sizes
Anti-Elastase	01-14-051200-100UL	Remains available in a 1 mL size

S100-aa, Bovine	16-BR-190801-BOVINE	Only aa variant affected; all other variants remain available

Reason for Change

These changes are being implemented as part of Athens Bioscience's ongoing review and rationalization of its product portfolio. Select low-demand products are being discontinued, while other offerings are being consolidated into grades, package sizes, or activity-based configurations that can be more consistently supported. These changes allow Athens Bioscience to simplify its catalog while continuing to offer the underlying products in commonly requested formats where applicable.

Impacted Documents

Impacted documents may include product listings, catalogs, price lists, quotations, product specifications, Certificates of Analysis (COAs), Safety Data Sheets (SDSs), and other product-specific documentation or commercial materials referencing the affected catalog numbers. Athens Bioscience will update applicable documentation and product listings to reflect these changes.

Timing of Change

Dog IgG, Dog ATF, and Immunoglobulin D (IgD) are **discontinued effective immediately and will not be remanufactured**.

For the remaining catalog numbers identified above, the affected configurations are being discontinued as catalog offerings. Where existing inventory is available, Athens Bioscience may continue to supply that inventory until depleted. Subsequent orders should use the alternative grade, size, or activity-based offering, as applicable.

During the transition, customers may encounter documentation or catalog materials that reference the discontinued catalog numbers while updates are being completed.

Additional Information

The discontinuation of a specific catalog number does not necessarily represent discontinuation of the underlying product. As identified above, several products will remain available from Athens Bioscience in alternative grades, package sizes, or activity-based configurations.

Certain catalog numbers identified in this notification may continue to be supplied under existing customer-specific, distributor, or OEM arrangements. Removal of a catalog number from Athens Bioscience's general commercial offering does not supersede separately established customer-specific supply arrangements

Custom sizes or configurations may also be available for select products. Custom requests will be evaluated individually for feasibility, lead time, and pricing and must be quoted directly by Athens Bioscience.

Customers currently using an affected catalog number are encouraged to contact Athens Bioscience to discuss available alternatives or custom requirements.
For any questions regarding this notification, please contact our technical support team at sales@athensbioscience.com.

Best Regards,

Athens Bioscience, Inc.
